RECOVER

RECOVER in the comfort of your own home with post-operative care

It is important that post-operative care is received following a surgical procedure. Metro Continued Care (MCC) has built trust with many surgeons around the region. Some of the top orthopedic surgeons have partnered with MCC to deliver comprehensive, patient-centered care in the home.

Home care can cost less and come with fewer risks than inpatient care. Patients sleep better and can recover more quickly in the comfort of their own home with skilled health care providers coming to them.

DME PROVIDERS

“Optimal outcome starts with a happy patient. An individualized patient-centered recovery plan is critical for optimal outcome. From nursing and wound care, medication management and organization, to patient mobilization and rehabilitation, Metro Continued Care is the most comprehensive home healthcare services currently available, and all with a personal touch.”

Kevin M. Koutsky, M.D.

Board Certified Orthopedic Surgeon

“The amazing postoperative care provided by MCC has allowed me to add more new patients into my schedule because their follow-up frees up time that would usually be for post-op visits.”

Dr. Chintan Sampat, M.D.

Board Certified Orthopedic Surgeon
